

# Applied Sustainability in Contemporary Culture in Colorado

Summer 3-credit  
online course with  
travel component!

Join students from across the Commonwealth and Penn State World Campus in exploring a variety of novel sustainability applications in Colorado. Topics include urban and rural food production, “zero waste” policies, permaculture, solar photovoltaics, anaerobic digestion, hospitality, sustainable brewing practices and more! This is a unique opportunity to interact with people who have put sustainability into practice and to explore one of the most beautiful states in the U.S., from the bustling Front Range cities of Denver and Boulder to quaint mountain towns to the arid Western Slope.
